

INTELLIPOOL[®]

AUTOMATION SYSTEM

Complete and smart automation system Pentair "INTELLI" devices.

CE EN 62368-1

TRADE
GRADE

2
years
WARRANTY

FEATURES

- Control all pool equipment locally or remotely
- Solutions made from proven and durable products
- Three full systems adapted to water treatment technology

BENEFITS

- Full automation system dedicated to Pentair "Intelli" products
- Reliable solutions
- Several systems available to meet automation and water treatment requirements

TECHNICAL FEATURES

- | | | |
|---|---|---|
| 1. Water temperature | 5. Flow information | 9. Disinfection by electrolyser or dosing pump |
| 2. External temperature | 6. pH level information | 10. Heating control |
| 3. Information on the pool cover position | 7. pH regulation | 11. Programming of backwash and control of automatic valves |
| 4. pH, RedOx and conductivity readings | 8. Control of IntelliFlo [®] pumps | 12. Lighting control |

FEATURES

- Filtration, water temperature and light control
- Control and diagnostics of IntelliFlo® variable speed pumps
- Control salt chlorinator or dosing pump (provided separately) by ORP regulation and digital display of ORP value locally and remotely
- Adjustment of pH set point and digital display of pH value locally and remotely
- Control and advanced diagnostics of the IntelliChlor® chlorinator
- System connects wireless to the home internet router to provide remote monitoring and control anywhere, anytime from a computer, smartphone or tablet (not included)
- Pool Professionals can remotely monitor and perform maintenance from a computer, smartphone or tablet
- Real-time information on the status of your swimming pool and your equipment
