

## XQ100 – 1/4 in. Polyethylene XQ Drip Distribution Tubing – 100 ft. Coil

- 1/4 in. XQ Drip Distribution Tubing – 100 ft. Coil
- The strongest and most flexible 1/4 inch drip distribution tubing available to position drip emitters in exact locations
- Unique blend of polymers that give it the flexibility of vinyl with hold of poly
- New textured finish improves handling
- Self extracting coiling feature makes it easy to use, store and eliminates waste
- Fits over barbed outlet ports and all Xerigation emission devices and 1/4 in. transfer fittings
- Unique coiling method allows tubing to remain coiled as tubing is extracted
- Extruded from UV-resistant polyethylene resin materials
