

## **Drip Line Valves**

TAVLIT offers a wide range of high quality drip line valves for various drip lines and drip tape that can be connected to P.V.C and P.E pipes and to threaded connections.

## Features:

- Robust design with 4 "O" rings and excellent mechanical properties for long life.
- Wide water passage (10 mm, 0.4") guarantees low head loss and enable longer laterals.
- Special design to prevent handle popping during Water hammer.

Valve open

## **Materials**

Body: P.P. or Acetal.

Nut: P.P.
Handle: P.P.
O-Rings: EPDM.

## **Technical Specifications**

- Max. Working pressure:
  - 8 bar (116 psi).
- Threads: B.S.P.T. or NPT.
- Available Sizes: 16-25 mm.
- Wide range of connections:
  - Barb, Thread (B.S.P.T., compatible with NPT threads).
  - Nut lock connectors.
- Nut Drip Tape Valves:
  - Wall thickness 4 to 45 mil.
  - Tape with or without seam.
- Drip Tape- Ring Connectors:
  - Wall thickness 6 to 25 mil Black ring.
  - Wall thickness 35 to 45 mil Brown ring.
  - Tape without seam.
