### 3. Panel & Liner

### 4. Concrete & Liner

### 5. Concrete

## Safety Warnings

- **Don't use electronic transformers which may damage the light. You should use industrial frequency transformer , such as toroidal transformer and square transformer .**
- Frequent voltage fluctuations can irreparably damage the lamp. If the installation must take place in areas where these changes may be frequent, a system to protect the lamps must be installed on the electric system of the pool.
- The persons who are in charge of installation should have the required qualifications for this type of work. ● Comply with the current standards regarding accident prevention.
- IEC 364-7-702 standards must be observed: WIRING IN BUILDINGS, SPECIAL WIRING, SWIMMING POOLS. ● Do not handle any electrical components with wet feet

## Warranty

The manufacturer warrants this resin filled LED underwater lights against defects in materials and workmanship for a period of two years from the date of purchase. This warranty does not cover the fixture becoming damaged due to misuse, accidental damaged, improper handling and/or installation and specifically excludes liability for direct, incidental damages.
